

K-LOVE radio, heard on FM translators 105.5, 89.1, and 100.9 in my area, is vital to our local community. It provides a needed positive listening experience that no other station has been able to provide on a consistent basis. Displacement of the K-LOVE signal by a local LPFM broadcaster providing other programming would leave a void that will likely go unfilled in the foreseeable future. Christian music lovers are well served by K-LOVE as a regional/nationwide station, because music transcends local issues. Local community events are also highlighted. Thank you.
